New Perspective of Time

The Finest Rolling Ball Clock

CHRONOMEANS

SHAHRAZAD

Limited Edition

Many people lived on today. It must have been a repetition of yet another boring day, tactic and busy, or tiresome. However we sometimes encounter these moments.

"Moments at which familiar things
suddenly appear different"and
"Moments of curiosity and enlightenment"

We believe that such moments can change "people and the world". We design moments of inspiration for you.

Do you wonder about 'Time'? People say life exists with time. What is time for you?
Do you ever question about time? If not, it is time for you to question it; no, it is time for you to question about LIFE! Don't be afraid. If the life throws you a question, the life may bring you a bountiful of pain.

Here we bring "Chronomeans" to you. Remember it is not just a table clock. It is an art work that is designed to give you moments to think of your being and it is an instrument to find time to find enlightenment of philosophy.

How about you? What is time for you?
Why not take a moment to think of time?

LIMITED PRODUCTION OF 99 PRODUCTS

All models of CHRONOMEANS are limited to 99 products. The number 99 symbolizes eternity and perfection.
We manually process and assemble parts precisely carved.
CHRONOMEANS is a kinetic artwork created by people who have trust in the analog values.

It is difficult to instantly recognize current time with CHRONOMEANS. The purpose of this clock is not to inform current time to the user.
We hope you can see your own time beyond time displayed by clocks. Tesseract of time demands your imagination.
